### DETAILED ACTION

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8 are, drawn to a system for continuous purification of a gas, classified in class 423, subclass 171+.
- II. Claims 9-11 are, drawn to a method for purifying fluorine gas, classified in class 423, subclass 240R.
- III. Claims 12-17 are, drawn to a process gas generation cabinet, classified in class 422, subclass 168.
- IV. Claims 18-24 are, drawn to a gas distribution system, classified in class 422, subclass 105+.
- V. Claims 25-31 are, drawn to a containment cart, classified in class 220, subclass 565+.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and (I, III, IV or V) are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be used to practice another and materially different process such as for removing HF from air.

Inventions I, III, IV and V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different

modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions and different effects, each apparatus in each of these four inventions has different features to achieve different effects.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ngoc-Yen M. Nguyen whose telephone number is (571) 272-1356. The examiner is currently on Part time schedule.
